

“Under Full Sail”

“Growing Hope”

Nations are in turmoil. Families are being destroyed. Lives are being shattered... If there was ever a time that our world needs hope, it is now! We know that it is **hope** that makes the difference in making it through difficult days.

Communities of Hope is embarking on a path to bring hope to nations and families. We will be using sustainable agriculture and technologies as tools and are calling our new initiative: **“Growing Hope”**. This year we have plans for local outreach to churches and non-profits and international projects with refugees in the Middle East and Africa, and Honduras.

We are excited about our role assisting others in growing their own organic and nutritious food. We will be helping to **create jobs, increase food security and stimulate small businesses**. The “farm” context becomes the venue to train and mentor. Our goal is to see lives transformed through relationship with Jesus Christ. **He gives true hope that endures and restores!**

Thank You for your support as we move forward in this new season. God is using you to impact lives around the globe. More than ever we need you to continue to stand with us as we “Grow Hope” together!

*Growing Hope Together,
Don and LeeAnn*

“Things happen in prayer before they happen!”

Communities of Hope, PO Box 9181, San Bernardino, CA 92427
